ZEITVERSCHIEBUNG – POSUN V ČASE

a multimedial art exhibition in PRAGUE + BERLIN

Under the title *Zeitverschiebung* (Time-Shift), the first part of a multimedial art exchange exhibition between Prague and Berlin will take place. At the initiative of the Prague artists for a dialogue with their western neighbours and especially with their fellow artists from Berlin, we can now announce the first exhibitions that will be held in the Gallery of the Prague Academy of Architecture and the Gallery of the Artists Association NSPU. The exhibitions, curated by both partners, include photography, drawing, painting, video and an interactive installation on the topic and the specific cultural context. The concept of a direct dialogue, i.e. the dialogic confrontation of the artworks, promises to be an exciting exhibition. Not in the least because Prague and Berlin are linked by a long cultural history, which is increasingly reflected today as a mutual interest between the younger artists.
